

Investment Policy Statement: GaulTech Expansion Fund

Document Ref: GTEF-IPS-2026

Strategy: Growth Equity

Status: Active

1. Fund Overview and Strategic Intent

The GaulTech Expansion Fund is a EUR 1.1 Billion closed-end vehicle focused on long-term capital appreciation within the **French Technology sector**, specifically targeting the **Software & IT Services industry**. The fund aims to partner with enterprises operating in software, digital platforms, IT services, and technology-enabled infrastructure that demonstrate strong competitive positioning and scalability.

The strategy prioritizes long-term equity value creation, with growth-oriented objectives guiding investment decisions.

2. Investment Eligibility & Opportunity Profile

Eligible opportunities are expected to operate within the French technology ecosystem, particularly within the **Software & IT Services industry**. This includes enterprise SaaS providers, digital transformation platforms, cloud infrastructure enablers, and IT service organizations. Companies are evaluated based on strategic relevance, competitive strength, and their ability to generate durable long-term growth.

3. Qualitative Risk & Governance Framework

A. Market & Competitive Positioning

- Demonstrated alignment with competitive dynamics in the French technology landscape, specifically in software and IT services.

- Diversified customer portfolios with concentration risks assessed appropriately.

B. Structural & Operational Integrity

- Strong governance practices, transparent reporting, and institutional internal controls.
- Evaluation of platform dependencies, infrastructure reliance, and vendor ecosystems.
- Business models should reflect clarity, scalability, and sustainable revenue architecture.

C. Regulatory & Compliance Landscape

- Alignment with French and EU regulatory frameworks, including data protection obligations such as GDPR.
- Review of potential exposure to litigation, licensing, or operational compliance risks.
